

Introduction:

crust
meteorites
minerals

Chapter 1

How can we describe rocks?:

granite
igneous
metamorphic
mineralogist
porosity
properties
sedimentary
talc

Chapter 2

How do volcanoes make rocks?:

crystal
lava
magma
obsidian
pumice

Chapter 3

Where do we find fossils?:

boulder
continents
Fossils
meteorologist
Palaeontologist
pebble
sediment

Chapter 4

Can rocks be changed?:

gneiss
metamorphic
pressure
temperature

Chapter 6

Can rocks be recycled?:

bedrock
humus
Silt
topsoil
waterlogged

ROCKS PART 1

VOCABULARY
