

## **Introduction**

states  
matter

## **Chapter 1**

### **What are the states of matter?**

carbon monoxide  
gas  
liquid  
plasma  
solid  
sulphur dioxide

## **Chapter 2**

### **Can we turn a solid into a liquid?**

melting  
melting point  
tungsten

## **Chapter 3**

### **What is the opposite of melting?**

antifreeze  
bacteria  
freezing  
freezing point  
frostbite

## **Chapter 4**

### **Why do puddles disappear?**

evaporation  
sweat  
sweat glands  
water vapour

## **Chapter 5**

### **Can we make rain?**

cloud  
condensation  
dew  
fog  
fungi  
precipitation
