

Lesson 1
What is electricity?

charge
electrostatic forces
flows
nerves
static electricity

Lesson 2
How do we produce electricity for our homes?

acid rain
appliances
circuit
current electricity
fossil fuels
nuclear power
pollution
renewable energy

Lesson 3
What are the parts of a circuit?

battery
bulb
buzzer
cell
components
motor
switch
voltage

Lesson 4
What are conductors and insulators?

conductor
insulator

Lesson 5
Is electricity safe?

electric shock
electrocuted
hazards
radioactive

Lesson 6
How has electricity changed the world?

carbon monoxide
generator
