

St Anthony of Padua Catholic Primary School

Computing Medium Term Plan – Year 2 – Summer 2 – Presentations and Typing

Lesson	Driving Question	Lesson	Assessment
1	What is technology?	<p>In this lesson, children will consider the technology around them and how people use it to connect to others. They will also practice some essential keyboard skills for use in future lessons.</p> <p>Please note: The children must use a presentation app in this activity. PowerPoint, Keynote or Slides. As such, the pupil portfolio should be opened in one of those apps and then</p>	(DL) I can give examples of how technology is used to communicate beyond school.

Lesson	Driving Question	Lesson	Assessment
2	Can you design a presentation about you and technology?	In this lesson, we will start designing our slides in a presentation; the slides we create will be all about our use of technology. We will be using a presentation app on your device.	I can save, share and retrieve my digital work.
3	How can I find images online?	In this lesson, we will continue adding to our presentation by searching the internet for images we can use in our work. The children will learn about using keywords and searching for copyright-free images.	<p>I can use technology to organise and present my ideas.</p> <p>I can use a search engine, and I am aware that not everything I read online is true. (Online Bullying)</p> <p>I am aware that content online is owned by the person that created it. (Copyright)</p>
4	Can I add video to my presentation?	In this lesson, we will continue adding to our presentation. The theme for this lesson is 'be kind online'. We will record a video advising how to act online and then add it to our presentation.	I can create with technology. E.g. Video, animation, 3D
5	What is animation?	In this lesson, we will learn how to move objects and make the presentation look good. In order to create this simple animation in our presentation we will use transitions and shapes to create the animation.	I can use design and formatting to enhance my digital work.
6	What is data?	This lesson will teach us about data and how it can be organised. We will count and organise data in a tally chart.	I can collect and record data purposefully.
