Computing Medium Term Plan – Year 4 – Summer 2 – Endangered Animals

Lesson	Driving Question	Lesson	Assessment
1	What is an endangered animal?	In this lesson, the children will explore the terms 'endangered' and 'extinct'. They will open and personalise their pupil journal with images and text. They will search for copyright-free images of animals and insert them into their journal.	I can use a search engine and I am aware that not everything I read online is correct. (Online Bullying) I understand the need for copyright and the consequences of ignoring it. (Copyright)
2	What is a habitat?	In this lesson, the children will be introduced to the term habitat and use Google Earth to explore different locations and environments. They will save images to insert into their pupil journal.	I can improve the quality and presentation of my work using editing and formatting techniques.
3	Why are endangered animals so at risk?	In this lesson, the children will discover that Habitat loss is the leading cause of extinction. They will explore three different ways we can support the conservation of our planet and animals. The children will brainstorm images for a social media graphic to raise awareness online.	I can create with technology. E.g. Video, animation, 3D
4	How can we create graphics?	In this lesson, the children will create a social media graphic using an art/paint application. They will use various digital brushes and tools and add a slogan. They will export the image and insert it into their pupil journal.	I can create with technology. E.g. Video, animation, 3D
5	How can we add audio narration to our social media graphic?	In this lesson, the children will record a short script to add impact to their Social Media Graphics. They will use the microphone and a video editing app to add narration and music.	I can label the different types of input connections on devices.
6	How can social media be used to raise awareness?	In this lesson, the children will finish their video editing work and review vocabulary in the pupil journal.	I can explain common file types.
