

St Anthony of Padua Catholic Primary School

Computing Medium Term Plan – Year 5 – Summer 1– Web Designer

Lesson	Driving Question	Lesson	Assessment
1	How is technology changing the world around us?	In this lesson, the children will learn about the role of technology in everyday life. They will open and personalise their pupil journal and research questions about the internet.	(IT/DL) I can use a search engine and I am aware that not everything I read online is correct.
2	Is the Internet and the Web the same thing?	In this lesson, the children will learn about the Internet, the web, networks, IP addresses, URLs and how digital devices connect to the Internet.	(CS) I can explore networks and internet traffic.
3	How do you build a basic website with HTML?	In this lesson, the children will learn the basics of using HTML to create a website. They will insert text and images using HTML.	(CS) I can create a basic web page using HTML.
4	What is a hyperlink and how do they work?	In this lesson, the children will discuss the features of a website, including a menu, links and icons. They will then choose a theme for their own website and create a site map.	(IT) I can improve the quality and presentation of my work.

Lesson	Driving Question	Lesson	Assessment
5	How can we create a webpage?	The children will sign in to an online website builder in this lesson. They will follow their site map and create a four-page website. They will start to add media and design to the home page.	(IT) I can use unfamiliar technology to create content.
6	How can we publish a website?	In this lesson, the children will complete their website and publish it. They will create a QR code that links to their website.	(IT) I can make a QR codes that links to a piece of my own work.
